Pendant lamp

Ever since its inception, Santa & Cole has developed this simple, highly customisable system for assembling individual pendant lamps. Sísísí features several types of rosettes for the ceiling in a range of finishes for the best fit, combined with shades in a variety of sizes, shapes and materials.

The GT4 and MT2 lamps consist of a conical shade made of stitched cardboard, to be repeated in spaces where a warm and generous light projection is desired. Its family consists of the Basic and Basic Minimal table lamps.

The GT4 model was originally designed in 1983 for Bar Sísísí, a famous Barcelona night bar in the eighties. At a time when international trends prevailed with lamps containing tubular metal structures and halogen bulbs, Gabriel Ordeig Cole (co-founder of Santa & Cole) sought to create a warmer alternative with the use of stitched cardboard. The aesthetics put forth challenged the dominant fashion at the time, as it supported a warmer modernity that valued craftsmanship.
